1. What is a Cookie

Cookies are data, stored in small text files on a Client's computer and/or device as they browse the world wide web. Cookies are harmless that are stored locally and can be easily viewed and deleted. They allow a website to be able to "recall" and "remember" a person's actions or preferences as these are established over a period of time.

2. Why and how we use Cookies

- To provide the user with a more precise use of our website, tailoring the content to the user's preference, optimising it for convenience and efficiency.
- Examine the use and activity per user, in order to create statistics to help us understand how our services are used and help us identify any issues and content that require improvement.
- To maintain the session of the user after logging in.

3. Use of Cookies on our Website

We use cookies to store and collect information about your use of our Website. They send information stored on them back to our web server when you access our Website. These cookies enable us to put in place personal settings and load your personal preferences to improve your experience. Cookies are frequently used on many websites on the internet, and you can choose how a cookie will be accepted by changing your preferences and options in your browser.

You may not be able to use some parts of this website if you choose to disable the cookie acceptance on your browser, and we therefore recommend that you enable cookie acceptance to benefit from all the services provided by our website.

What types of Tracking Technologies do we use?

We use three main types of Tracking Technologies:

1)Strictly necessary Tracking Technologies:

These Tracking Technologies are essential to enable you to login, navigate around and use the features of our Services, or to provide a service requested by you (such as your username). We do not need to obtain your consent in order to use these Tracking Technologies. These Tracking Technologies can be used for security and integrity reasons - for example to detect violation of our policies and for support or security features.

2) Functionality Tracking Technologies:

These Tracking Technologies allow our Services to remember choices you make (such as your language) and provide enhanced and personalized features. For example, these Tracking Technologies are used for authentication (to remember when you are logged-in) and support other features of our Services.

3) Performance Tracking Technologies:

These Tracking Technologies collect information about your online activity (for example the duration of your visit on our Services), including behavioural data and content engagement metrics. These Tracking Technologies are used for analytics, research and to perform statistics (based on aggregated information).

4. Types of Cookies

Session Cookies are temporary and deleted once the user closes their web browser.

Persistent Cookies may stay on the Client computer for a long time after the session is ended.

Website cookies are either;

First party cookies which belong to the website that the client is browsing (e.g. cookies used to identify the client when they login).

Third party cookies belong to different websites the client has visited (e.g. advertising tracking cookies).

5. How to manage your cookie settings

Please note that we do not recognize or respond to automated browser signals regarding Tracking Technologies, including "Do Not Track" requests. However, there are various ways in which you can manage and control your cookie settings. Please remember that, by deleting or blocking cookies, some of the features of the Services may not work properly or as effectively.

6. Turning off cookies via your web browser

Most web browsers will provide you with some general information about cookies, enable you to see what cookies are stored on your device, allow you to delete them all or on an individual basis, and enable you to block or allow cookies for all websites or individually selected websites. You can also normally turn off third party cookies separately. Please note that the settings offered by a browser or device often only apply to that particular browser or device.

Information about cookies is usually found in the "Help" section of the web browser. Below are some links to some commonly used web browsers:

- [Chrome](#)
- [Chrome for mobile](#)
- [Internet Explorer and Microsoft Edge](#)
- [Mozilla Firefox](#)
- [Safari](#)

Not making any changes to your Browser settings is equivalent to granting consent. For further information on cookies please visit <https://www.aboutcookies.org/>

Business Partners (e.g. advertisers) use cookies on our website. We have no access or control over those cookies. This Policy only covers the use of cookies by our website and portal/terminal and does not cover the use of cookies by any third parties.
